PERSONAL PROFILE

I'm a professional Unity3D developer with a decade of experience in the field, I specialise in creating immersive experiences across AR, VR, mobile and desktop platforms; I'm proficient in developing rapid prototypes to bring projects to life. My experience as a 3D modeller and rigger strengthened my skills even further, which led me to develop mobile games in my spare time. I am a self-motivated person, willing to improve my capabilities and open minded to new and interesting opportunities.

SKILLS

Softwares: Unity3D, Maya, Zbrush, Photoshop, xNormal, 3DSMax, Nuke, MudBox, After Effects, Premiere; Git/Perforce.

HOBBIES

I love skating and I participated in a few competitions in Italy where I am a member of the association *Pincio.com*. I like going to the cinema watching sci-fi movies and playing with my RC monster truck.
I also think that during the time spent commuting a book is a good friend.

NOTES

I'M NOT interested AT ALL in any web/HTML/Java/.NET developer position.
Able to work both in the UK and abroad.
References and copy of certificates available on request.
